

Dear you poor schmucks;

Just kidding. If this class was not a requirement we would not have been here. However, the knowledge you gain will advance your mind, Body, Soul, and Business Career. Furthermore, you will become a consummate expert at watching reality TV. You will see that by practice you will gain knowledge about putting on paper a coherent idea about real and fictional facts based on writing assignments that are written.

We figured each essay from research, 1st drafts, and final drafts we spent 6-12 hours. Make sure you are thorough and ideas are well placed. The most important thing is to have a bottle of rum with you at all times.

Rest in peace, and may Skip be with you!
