

## *Letter to Next Year's College Writing Class*

*Tracy expects us to participate in class and read aloud. Come to class prepared and on time. Make sure you turn your assignments in on time to prevent getting a lower grade. Take all the help you can get. Feel free to express and force your opinion, we are all in this together and for the same reason. Do NOT Procrastinate, the assignments take a lot longer than they appear, however the more time and effort you put into the assignments, the better the grade you'll receive. Don't be afraid to express yourselves in your journals and essays. Make sure you allot specific time just for research as that can be more time consuming than the essays themselves. If attending two classes, prepare yourself to lose your weekends for eight weeks. There is and there will be a lot to be done, but in the end it should be self rewarding. So after the 8 weeks of hard tedious work, Drinks on Tracy!!*
